SUBMERSIBLE SEWAGE PUMPS

DW - DW VOX

EBARA presents the **DW - DW VOX** Submersible Pump. The **ONLY** submersible pump for light screened Sewage and dirty water. The pump is manufactured entirely from a single sheet of 304 stainless steel using the EBARA pressing method. Comprising of a single channel impeller or "Vortex" style and incorporating a double mechanical seal. The volute of the **DW - DW VOX** is made as an integral part of the pump casing using the EBARA patented pressing technology.

APPLICATIONS

- Removal of treated liquid waste.
- Draining of building sites.
- Draining of sump pits.
- Emergency drainage pumps for flood protection.
- Tank emptying.
- General dirty water duties.

TECHNICAL CHARACTERISTICS

Completely pressed from 304 stainless steel.

Pump body and spiral volute produced using EBARA patented technology.

DW = Single Channel Impeller.

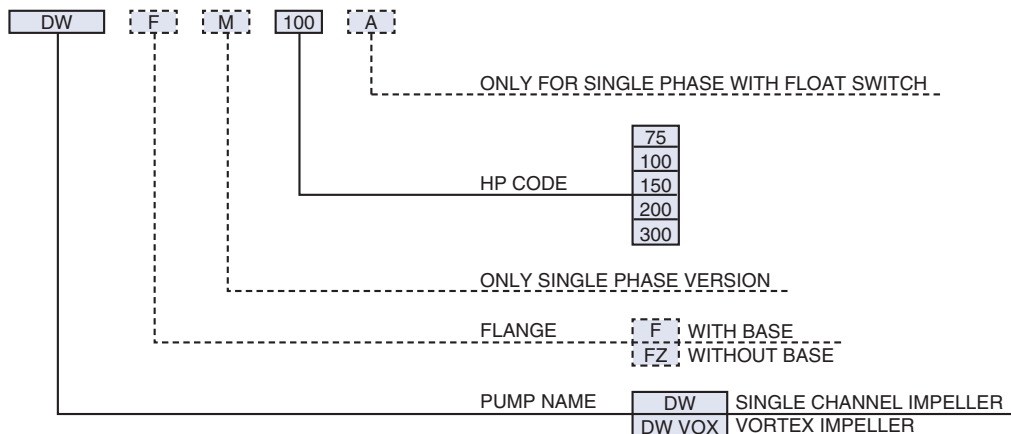

DW VOX = Open fronted impeller - "Vortex" style in recessed position.

- Lifting handle provided as standard.
- Shaft extension made in 304 stainless steel.
- Double mechanical seal with oil chamber for lubrication.
- Mechanical seal components - graphite/ceramic and silicon carbide/silicon carbide.
